

## VirtuaLed's Guide to Creating a Note Using Evernote

From your account dashboard, select the note to share. Once opened, click the arrow attached to the "Share" button. From this menu, select the sharing method you would like to use.

If you select Facebook or Twitter, you will have to login. Sending a message by link simply provides you with the URL for the note.

In this example, we will be sending the note via email. We enter first the address

(virtualedtrain@gmail.com). We then have the option to include a message. At this point, we hit email to send. And our note has been shared.
